Experience

I have raced on the road since I was 9 years old, and have grown a deep passion for the sport and wish to continue my pursuit of the highest level. I have competed in 5 Cyclocross and 4 Road National Championships and 10 international stage races during my years as a junior and U23. I spent this past season competing in the biggest pro/1 races in the country, learning how to bounce back from mental and physical setbacks and how to support, shelter, and position team leaders. This year I also worked hard to develop my time trialing capabilities into a competitive strength, and experienced an entirely new form of racing competing in 2 of the 3 NCL races. I enjoy a fast and aggressive style of racing. I love difficult races with punchy climbing and technical aspects, but also am a savvy crit racer and enjoy technical criteriums with many corners. During my time in Spain in 2021, I raced for Carmago's Spanish junior team for two months racing in 5 international stage races. I found the style of European racing to suit me very well, with lots of climbing and fast, aggressive racing. Throughout my time in Europe I raced competitively and aggressively, racing at the front of each race and spending lots of time getting into strong breakaway moves. For more results please contact me directly. Also, please contact me if you have any questions, and I am more than happy to help you get in touch with my current team's coach or my trainer.
